Rear Wheel Disassembly/Assembly	13-4	Swingarm Disassembly/Assembly	13-15
Shock Absorber Removal/Installation	13-6		

### Service Information

#### **⚠ WARNING**

- The shock absorber contains nitrogen under high pressure. Do not allow fire or heat near the shock absorber.
- Before disposal of the shock absorber, release the nitrogen (see page 1-10).
- Any attempt to mount auto mobil tires on a motorcycle rim may cause the tire bead to separate from the rim with enough explosive force to cause serious injury or death.

- When servicing the rear wheel, support the motorcycle securely with a center stand or other support under the engine.
- Refer to the section <sup>14</sup>14 for brake system information.
- Use only tires marked "TUBELESS" and tubeless valves on rims marked "TUBELESS TIRE APPLICABLE".
- Use only genuine Honda bolts and nuts on all suspension, swingarm and shock absorber mounting locations.
