

# Connecting Rod Bearing Selection

Check the connecting rod I.D. code.

Check the crankpin O.D. code (or measure the crankpin outer diameter).

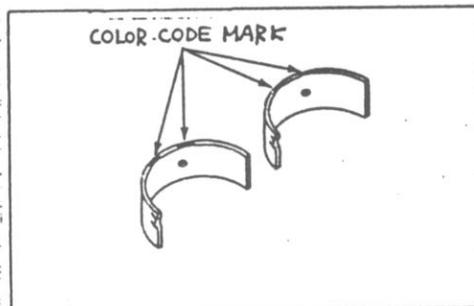

Select the bearing according to the crankpin and the connecting rod codes.

### CAUTION

• The number of connecting rod bearing color code marks indicates front/rear distinction.

- 1 color code mark: Front cylinder bearing
- 2 color code marks: Rear cylinder bearing

### Connecting Rod Bearing Selection Table

Unit: mm (in.)

Connecting Rod I.D. Code	Crankpin O.D. Code	
	1	2
	36.000-36.008 (1.4173-1.4176)	36.008-36.018 (1.4176-1.4179)
A- 32.992-33.000 (1.2989-1.2992)	C (Yellow) (Yellow/Yellow)	B (Green) (Green/Green)
B- 32.984-32.992 (1.2986-1.2989)	B (Green) (Green/Green)	A (Brown) (Brown/Brown)

### Bearing Metal Thickness:

A (Brown) (Brown/Brown) : 1.494-1.498mm (0.0588-0.0590 in.)  
 B (Green) (Green/Green) : 1.490-1.494mm (0.0587-0.0588 in.)  
 C (Yellow) (Yellow/Yellow): 1.488-1.490mm (0.0585-0.0587 in.)
